Spear Logistics Wins Logistics Company Award

One of the key Contract Logistics service providers in India, Spear Logistics Pvt.Ltd. was awarded the Logistics Company of the year award by the prestigious Indian Institute of Materials Management (IIMM) at an event held today in Pune. The program is held every year to recognise and promote professional excellence in materials and Supply chain management felicitating industry leaders and outstanding performers in the supply chain and logistics space.

On receiving the prestigious award, Captain Uday Palsule, Managing Director, Spear Logistics says, "We are delighted and honored for the recognition from such a respected body and eminent jury members. I would like to congratulate the entire Spear team for their on-going efforts and sincerely thank our customers for their immense support and confidence in us all these years."

Qlik Introduces Qlik Sense Enterprise 2.0

Qlik, a leader in visual analytics, today previewed Qlik Sense Enterprise 2.0, the newest release of its modern, platform-based approach to business intelligence (BI) available in June 2015. Qlik Sense Enterprise spans use cases across the organization ranging from self-service data visualization, to reporting and dashboards, to guided analytics, and embedded analytics, all based on the patented QIX Associative Indexing Engine. At its Qonnections Global Partner Summit, Qlik previewed functionality in areas of self-service data preparation, integrated reporting, and new visualizations.

"Qlik Sense has the potential to expand our business intelligence use case," said CIO of Omnicom Media Group France, Vincent Cadoret, "Qlik Sense expands the co-creation with the end user, with more self-service possibilities and storytelling while keeping the power of the associativity engine of Qlik and reusing the data models of our existing QlikView applications."

Junglee Games Support Rehabilitation In Nepal & Bihar

The employees of Junglee Games have volunteered to contribute one day's worth of their own salary to the Prime Minister's National Relief Fund to aid the thousands of victims who have been impacted by the earthquake in Nepal and Bihar. In what is being termed as the most damaging natural disaster to hit the Himalayan nation in 80 years, the death toll of the earthquake has already claimed over 5,000 lives and left almost 10,000 injured across the country. The Junglee Games' team has come together to stand in solidarity at this critical juncture to assert their support through their humble contribution. Some employees have even gone a step further to increase their contribution beyond a day's salary as well.

"The destruction caused by the earthquake is insurmountable with an estimated 8 million people affected by the calamity. The loss of lives and property has left a deep chasm in its wake that will take the contribution of neighbouring states such as ours
